

TUESDAY

This Session of Congress is to Come to an End.

CONFREES ON PHILIPPINE BILL HAVE AGREED.

MR. ELKINS MAKES A SPEECH

Favoring Annexation of Cuba as a State—The Closing Day of the Session.

Washington, June 30.—(Bulletin).—The Senate and House leaders today agreed to adjourn Congress at 3 p. m. tomorrow. An adjournment would have been had today but it was not possible to enroll the Philippine bill in time.

Washington, June 30.—Congress may adjourn late today. The Republican conferees on Philippine civil government bill have reached an agreement and are now going over the whole bill with their Democratic colleagues. It has been agreed to eliminate entirely both the Senate and House provisions for coinage in the Philippines. The House provision for a native legislature has been accepted with an amendment providing that it should not take effect until after the census of the islands shall have been taken and its results communicated to the President and Congress. An agreement on the naval appropriation bill and on the general deficiency appropriation bill are the only two other measures outstanding. It is expected during the day an agreement will be reached so that Congress in all probability will have completed its business before the adjournment tonight.

Notable among the larger measures passed at this session is the isthmian canal bill which consummates the efforts of a half century to unite the Atlantic and Pacific. The Philippine civil government bill is another of far reaching importance. Among the important measures passed are:

Those repealing the war revenue taxes; extending and making more effective the Chinese exclusion laws; establishing a tariff for goods to and from the Philippines; extending the charter of national banks for 20 years; establishing a permanent census office; restricting the sale of oleomargarine by placing a high tax on imitation butter; providing a consular and diplomatic service for Cuba; establishing an extensive system by which the government will aid in the irrigation of the arid sections of the West.

The repeal of the war revenue taxes reduced taxation \$73,250,000. The Philippine tariff act imposes 75 per cent of the Dingley tariff rates on articles

coming from the Philippines to the United States, and also imposes on articles entering the Philippines from the United States the rates of duties established by the Philippine commission. The oleomargarine act results from several years of agitation. It places a tax of 10 cents a pound on substances colored to imitate butter.

The irrigation act is of special importance as to the development of the West.

The Chinese exclusion law continues "until otherwise provided by law" and also applies the exclusion "to the island territory under the jurisdiction of the United States."

Aside from these important laws there are a number of other measures of general importance which have passed one or both houses but have not progressed to the final stage. These include the anti-anarchist legislation.

A bill giving statehood to Arizona, New Mexico and Oklahoma passed the house and the senate has determined to take the matter up early in the next session.

The salt subsidy bill secured early attention in the senate, but the end of the session has come without the measure being reported to the house.

The bill to establish a cable between the United States, Hawaii and the Philippines was retired by defeat in the house of representatives.

The amount of appropriations for the session will run unusually high. When Mr. Cannon submitted a general estimate of appropriations a few weeks ago, he made the total up to that time \$691,145,000. Since then the canal bill has passed, carrying a present appropriation of \$40,000,000 for the franchise, and enough more for the rights of Colombia, and for beginning the work to carry the total up to \$50,000,000. The entire cost of the undertaking is approximately \$184,000,000. Mr. Cannon's estimate also omitted contracts for future expenditures included in the omnibus public building, omnibus claims, and various other bills, aggregating a large amount. This will carry the total for the session, according to the estimate, to almost, if not quite, up to the billion dollar mark.

Washington, June 30.—In the Senate today Mr. Ellkins (Rep. W. Va.), made a speech in support of his resolution introduced, providing for the annexation of Cuba.

He stated that the resolution had been misunderstood. Its introduction had no relation to the question of Cuban reciprocity, nor could its adoption be an offense to Cuba as had been suggested. The resolution provided for annexation only in the event that Cuba should take the initiative.

Mr. Ellkins then traced the growth of sentiment in this country favoring Cuban annexation from the time when Jefferson looked forward to such a

KING REMOVED TO HIS COUCH ON MONDAY AFTERNOON.

THE DRESSING OF THE WOUND

gives Much Pain but the Doctors Say That There Are No Alarming Symptoms.

London, June 30.—The following official announcement was made at Buckingham palace this afternoon.

"The King was lifted to a special couch yesterday for a few hours. He was much benefited by the change. The queen is in constant attendance. The king occasionally sees his children but the interview is very short. The utmost quiet is enforced.

"The king sees no correspondence and is not approached on matters of state or business.

"The king's courage and patience call for the greatest admiration. His wound which is of considerable depth, is dressed at least twice daily from the bottom, as it is essential that it should heal from the bottom. The dressing causes considerable pain which is borne with great fortitude.

"The temperature in the king's room is kept down by electric fans, which have proved of great value. "Doctors Laking, Barlow and Treves have not left the palace since the operation was performed, except for an occasional hour."

NO BAD SYMPTOM.

London, June 30.—With the exception of the mention of a somewhat unsatisfactory condition of the operation wound, the official bulletin regarding the king's condition, posted at Buckingham palace at 10 o'clock this morning continues to be of the favorable tone of those issued for the past three days. The bulletin was as follows:

"His Majesty has slept well. The dressing of the wound gives much distress but there is no bad symptom of any kind.

(Signed) Treves, Smith, Laking Barlow."

The king was removed to his couch again this afternoon.

The king's removal to the couch was carried out under Dr. Treves' direction. Six attendants, holding it as many points the sheet on which the king lay, lifted him clear off the bed to the couch, Treves regulating their movements by raising and lowering his hand. The couch has three modes of adjustment permitting the king to recline in any position.

"The king greatly appreciated the change and felt no ill effects."

A SURPRISE DOUBLE WEDDING.

Wooster, O., June 30.—Just as the minister pronounced Earl Dickerson and Miss Kittie Walters husband and wife Howard Mosley and Miss Lillian Walters, a sister of the bride, came forward and asked to be wedded in a like service. The pair had kept their secret well and not one of the guests knew of their intention, and they made the wedding a double one.

NOW SHE'S A "HEALER."

Witchita, Kan., June 30.—Carrie Nation, the "smasher," is announced will join "Elijah" Dowie's colony in Chicago, as an assistant officer. She claims to be a "healer."

TWENTY LOST

Storm on the Lower Coast of Texas Did Great Damage—Twenty Gulf Vessels Lost.

Dallas, Tex., June 30.—Reports received show that the storm of Friday and Friday night was quite destructive on the lower coast of Texas and the extreme northeastern part of the state. Sections separated by nearly 1000 miles suffered prostration of wires. The remoteness of the localities have kept back details and it is feared the worst is yet to come.

On the lower coast, below Lavaca and Indianola, 20 small gulf vessels have been lost, and as many as a

score of human lives. The waves of the gulf inundated the site of the old city of Indianola, washed away in 1875. Much damage was done and two lives were lost near Eagle Lake. The dead are: Francis Voaclovsky and Mrs. Ignace Vrotsky. Half a dozen persons were seriously injured, two it is believed, fatally.

At Breeville Frank Dickson was killed and his wife and two children fatally injured. Fully \$500,000 of farm and town property was destroyed in the lower gulf country.

COLDEST JUNE.

Cleveland, O., June 30.—According to the statistics of a local weather observer, June was the wettest, coldest June in 47 years. Nine inches of rain fell during the month and the average temperature was only a shade above 60.

TO MARRY MAN SHE NEVER SAW

Knox County Farmer's Pretty Daughter Leaves for the West to Meet Unknown Lover.

Fredericktown, O., June 30.—Miss Belle Gleeson, a pretty farmer's daughter of eighteen summers, has left for Seattle, Wash., where, on her arrival, she is to become the bride of a young man she has never seen.

The prospective bridegroom is Wm. Faust of Seattle, a young lumberman. A year ago Faust incidentally learned Miss Gleeson's address through a friend of the young lady living in Seattle.

He wrote her and she consented to correspond with him. Since then they have exchanged missives burning with love as fast as the limited mail could carry them. Recently Faust proposed marriage, asking the girl of his choice to meet him at his home city. She consented and immediately made preparations for the journey of which this week will probably see the finish. When she arrives at her destination she will raise a red silk parasol over her head so that her sweetheart will recognize her. Miss Gleeson feels confident that her unknown lover will prove to be all that she has hoped for, while her father, a well-to-do farmer has the most implicit confidence in the man to whom he gives his daughter a bride. Anxious friends are awaiting the first intelligence from Miss Gleeson when she arrives in Washington and meets her prospective husband.

HYDROPHOBIA

Caused the Death of an Eleven Year Old Boy on a Train—Bitten by a Pet Cat.

Pittsburg, Pa., June 30.—James Irone, aged 11 years, son of Morgan town parents, died last night on the B. & O. limited of hydrophobia. He was being taken to Baltimore for treatment. He had been bitten by a cat which was bitten last April by a mad dog.

SHOT WIFE

Then this Cleveland Man Suddenly Insane, Cut His Own Throat and Will Die.

Cleveland, O., June 30.—Eugene Howard, aged 35, employed by a local carpet house, went suddenly insane at his residence on Windsor avenue, this morning and shot his wife, killing her instantly. He then cut his own throat and will die.

Notable Wedding.

London, June 30.—I. A. N. Maibou member of parliament from Suffolk, and Jeanne Langtry daughter of Lillian Langtry, the actress, were married at St. Margaret's church this afternoon. The bride was the daughter of Mrs. Francis Leggat, the daughter of Mrs. Francis Leggat of New York City.

The wedding presents were worth a king's ransom. They included a diamond necklace, the groom's present to the bride, a jewel with an autograph letter from King Edward a rosette of diamonds and pearls, a complement of linen and a check for a substantial amount from Mrs. Langtry and gifts from most of the aristocracy of London.

BALLOON

Carried Up Man Hanged By One Foot.

HE ASCENDED 3000 FEET BUT LANDED SAFELY.

A THOUSAND PEOPLE PRESENT.

Crowd Was Terror Stricken—Ward's Foot Caught in One of the Ropes.

Bellingham, Miss., June 30.—While Prof. Hillman was making a balloon ascension at Lake Hoag yesterday afternoon, Louis Ward of Milford, who was assisting, got his left foot caught in a guy rope and was carried 3,000 feet upward and on his descent landed uninjured nearly a mile away. Prof. Hillman went up a few hundred feet and after giving Ward some instructions about the proper ropes to grasp, descended in the parachute.

Ward ascended, hanging by his feet, but eventually succeeded in pulling himself into an erect position. The 1,000 persons present were terror-stricken at the accident and followed the course of the balloon around the lake arriving at the point of descent in season to see Ward climb down a tree.

SEER'S STORY

WAS BELIEVED BY THESE THREE OHIO MEN

Who Hurried to Missouri Hunting for a Fissure With Its Hidden Millions of Treasure.

Bellefontaine, O., June 30.—The story of how three Bellefontaine men were led to Missouri in search of a hidden fortune of \$8,000,000 has come to light with the return home of one of the fortune seekers. Several weeks ago Henry Denny of this city, was in Springfield and visited a clairvoyant. So true was the history of his past life that Mr. Denny was very credulous, and when the woman told him of a hidden fortune in the mountains of Missouri, he accepted the story implicitly.

Details were not lacking, for the woman furnished a chart of the country, showing roads and mountains and marking the exact location in which, according to her description, there is a narrow fissure. The width of the opening was dwelt upon by the clairvoyant, but she assured Denny, who is a man of slender build, that any person of his stature might descend.

"Down deep within this opening are \$8,000,000, the earnings of a band of Mexican bandits, and placed there three years ago by them for safe-keeping," explained the seer.

Denny hurried home from Springfield and informed Saloon Keeper David Miller and their mutual friend Otho Countryman of the "discovery." The three suddenly departed about ten days ago. There was an air of mystery about their going that was not dispelled until Sunday, when Miller came home.

Through his friends it has leaked out that the money was not found. When the party arrived at St. Louis they went by boat south and then to the southern part of the state, failing to find the fissure described by the clairvoyant, the men decided they had been duped and the project was given up.

FIGHTING

CONTINUED ALL DAY LONG NEAR CAPE HAYTIE

Northerners Win a Fight in Hayti—Great Excitement Prevails as a Result of the Battle

Washington, June 30.—(Bulletin).—American warships will be sent at once to Hayti for the purpose of protecting American lives and property endangered by the revolution now

progressing there. This action was decided upon by the navy department today upon the request for the same cable to the state department. The nearest available vessel is at Fort de France.

Cape Haytien, Hayti, June 30.—There has been much fighting here and great excitement prevails. Admiral Killick, commander of the Haytien fleet, disembarked a further detachment of troops and a large quantity of ammunition at 4 o'clock Sunday morning for the better protection of General Firmin, one of the candidates for the presidency of the republic.

Since 6 o'clock a m. there were several lively engagements between the men from the fleet and the revolutionists from the north. Several machine guns were set up in a commanding position by General Firmin's forces, and an attempt was made to drive the men from the north from their position. Notwithstanding the fire from the machine guns, detachments of the northern revolutionists made several attacks on General Firmin's followers, and the latter were eventually dislodged.

In the meantime the vessels under the command of Admiral Killick were bombarding Cape Haytien. This action was taken without previous notification to the foreign consuls here. There has been a lively rain of shots down the streets of Cape Haytien all day long. The firing was particularly heavy between noon and 2 o'clock and between 4 and 5 o'clock Sunday afternoon.

At the moment of filing this dispatch the foreign consuls, under the protection of their various flags, are with General Firmin and are about to embark on the government gunboat Arete A. Pierot. They are under a heavy fire and in considerable danger. The foreign residents of this port are at present exposed to the lawlessness and savagery of the combatants.

Deep regret is expressed that no warship of a foreign power is in the harbor to afford protection to foreign residents.

Great excitement reigns here and as this dispatch is sent the firing in the streets continues.

Port au Prince, Hayti, Saturday, June 28.—The elections for deputies have commenced here. The city is calm and the electors are voting freely. In the other cities of the republic however, military supervision of the elections has been imposed, and the people are very much excited.

HELD SUNDAY SESSION.

Washington, June 30.—The House of Representatives held a session Sunday to pay tribute to the memories of the late Representative Cummings of New York and the late Representative Peter J. Otey of Virginia. The Marine Band was in attendance and rendered an appropriate musical program.

Although services have been held in the House on Sunday on previous occasions, notably at the death of Henry Winter Davis, this was the first time in 90 years that Sunday was made a legislative day.

Wilmington, Delaware, people are talking about absorbing New Castle, now about five miles away.

PANAMA CANAL BILL A LAW

President Roosevelt Late Saturday Night Attached His Signature—Transfer Of The Title Rights and Franchises To Department of Justice.

New York, June 30.—A Washington dispatch to the Herald is as follows:

President Roosevelt made the isthmian canal bill a law late Saturday night when he attached his signature in the presence of Senator Hanna, the chief advocate of the compromise measure, and Rear Admiral Walker, who has been President of the two commissions that made the recent examinations of canal routes for the government.

The pen with which the bill was signed was presented to Senator Hanna. The President did not sign the bill until he had made himself fully acquainted with all the facts regarding its provisions and had obtained the views of Senator Morgan and Representative Hepburn, the leading advocates of the Nicaragua route. The President also had a long consultation with Rear Admiral Walker and became convinced that the bill would

Are The Miners Standing Says Mitchell.

PRESIDENT IS SATISFIED WITH THE SITUATION.

ACTION OF THE CONVENTION

He Refused to Discuss—Will Leave for Michigan Tuesday—The Men Remain Firm.

Chicago, Ill., June 30.—John Mitchell president of the United Mine Workers held a conference today with Herman Justi, commissioner of the Illinois coal operators' association to adjust some minor disputes in Illinois. Mitchell expressed himself as satisfied with the strike situation and said the men were standing firmly to win the struggle. He refused to discuss the probable action of the convention on July 17 at Indianapolis saying that was a question for the delegates to decide.

Mitchell will leave tomorrow for Saginaw, Mich., where a convention of the Michigan miners and operators will be held, beginning Wednesday morning. The men have been on a strike for several weeks and the purpose of the convention is to adjust the trouble.

Hazleton, Pa., June 30.—The operators of the Harwood colliery today posted a notice saying they wanted to end a hopeless strike and offered places to the old employees. Up to noon no one had returned to work.

At Drifton this morning a cordon of strikers gathered and turned back all non-unionists. Deputies hurried to the scene and dispersed the crowd.

INDIANA RAIN

Section Visited by Storm East Week Has 48 Hours Downpour and the Crops are Ruined.

Indianapolis, June 30.—For the past 48 hours almost without cessation rain has poured down in central Indiana. That section of the State which was swept by a terrific storm of last week when four lives were lost and immense damage done, was again visited, and any chance the beaten crops may have had for rising from the ground is gone. All Saturday night, throughout Sunday and all Sunday night the downpour continued. In the country districts near here wheat has been greatly damaged and grain is said to be sprouting in heards instead of ripening. This is especially true of wheat and millions of dollars damage will be done in this state alone if the rain continues. The sky is still overcast today.

NO ADVICE

About Reorganization Needed By Democratic Party From The Unfaithful.

The Party of the People Certain to Triumph in 1904—A Few Plain Truths Plainly Stated.

The critics' commenting on the recent speech of Grover Cleveland at the Tilden club banquet have had their say. And the critics themselves have come in for a share of criticism. Mr. Henry Watterson, for instance, has been given a dose of his own medicine. He has been plainly told that he was as much of a traitor to the Democratic party in 1896 as Grover Cleveland was.

But nevertheless, Mr. Watterson's criticism of the Cleveland administration contains plain truths that deserve due consideration. These plain truths consist of what Watterson specifies as Cleveland's blundering and incompetency in the management of the tariff question. Watterson clearly shows that the Cleveland effort to reform the tariff was a monumental failure—a piece of blundering, bungling, tyrannical interference and incompetent management at every stage of the proceeding. Those Democratic leaders in the House and Senate who had the ability and desire to reform the tariff on business lines and give the country a tariff measure that would stand the test of a fair trial, were ignored and snubbed. The counsels of such men met with no favor from Grover Cleveland. On the contrary they were treated with every possible discourtesy at the White House.

Whatever merit the tariff measure that was passed (the Wilson bill) did possess, was discredited in advance in consequence of the long, unnecessary delay and the months of suspense to the business interests, caused by the miserable mismanagement on the part of the administration.

The state of affairs thus produced placed the Democratic party in disrepute throughout the country, caused it to suffer great injustice and carried it down to defeat.

Coupled with this was the arbitrary monometal financial policy of the Cleveland administration, and it was no wonder that this mismanagement and unfortunate combination of conditions caused the discontented state of affairs to become prevalent that produced Populism in every state in the Union.

If Populism is the dreadful thing that Grover Cleveland depicts it every time he opens his mouth, he himself is responsible for the existence and prevalence it had, more than any man in the entire country.

Hence, whatever Henry Watterson's

faults are, and admitting that he was equally to blame with Cleveland for opposition to Bryan in 1896, his criticism of the palpable shortcoming of the Cleveland administration on the tariff question, contains facts that cannot be successfully controverted and are worthy of serious thought.

Grover Cleveland, when President, had the opportunity to place the Democratic party permanently in power. When Democrats know this and keenly feel the disappointment consequent upon Mr. Cleveland's failure, it is not surprising that they reject his advice about party reorganization now to restore it to the power that he threw away.

The talk about party reorganization would be worthy of more consideration if it came from loyal Democrats who stood by the party organization and supported Bryan in 1896 and 1900. But the fact of real significance is that the great Democratic party needs no reorganization. Its organization has been preserved intact by the faithful and advice from the unfaithful comes with had grace, to say the least.

It is only necessary to add to the foregoing plainly stated facts that the great Democratic party—the party of the people—only needs to bide its time, for it will triumph over the party of trusts and imperialism in 1904 as certain as the year shall roll around.

The Republican county convention that met Saturday to nominate a county ticket was composed of delegates that were chosen at little caucuses weeks ago. This makes it very convenient for the few bosses under the shrewd leadership of a single man to fix up the slate. The opportunity made it an easy accomplishment for the one man who practically named the ticket.

PLUCKY BOY STOWAWAY.

Youngster Crossed Sea in a Donkey Engine Boiler on the Umbria.

Bazo Glicina, a blue eyed little Dalmatian lad of sixteen years, hid himself in the donkey boiler of the steamship Umbria that he might cross the Atlantic and land in the land of the free, says the New York Evening Journal. He suffered hardships that might have tried the determination of many a stronger man.

He had been buffeted about the Mediterranean in a slow moving tramp steamship, had been kicked ashore penniless at Alexandria, only to stow away in the next ship that offered. He had reached New York a stowaway only to be returned to Liverpool, and in desperation he had again stowed away on the Cunarder Umbria, selecting this time of all places the donkey boiler, where he lived for five days, fed by the generosity of the stokers.

It may be, too, that all this heroic endeavor would have been thrown away had not Immigration Commissioner Williams been touched by the story of Glicina's sufferings. He was freed and formally admitted to the new world.

Corn Paul's View of War.

An anecdote of President Kruger is told in a letter received in New York city from one of the British officers who was captured with General Methuen by General Delarey. A pious Boer, arguing against war after the struggle with the English had become inevitable, said that nations as well as individuals when smitten on one cheek ought to turn the other. "Exactly," exclaimed Corn Paul, "but Scripture does not say what we should do next, and manhood speaks up and says, 'Thrush the fellow.'"—New York Times.

Peace.

"Peace!" is the word to the war swept bolt. That the galloping burghers bring. "Peace!" is a cry in a tone heartfelt. From coster and peer and king. "Peace!" is the chorus—a mighty voice Upraised in a rapt refrain—As nations, a worldwide throng, rejoice—But the graves of the dead remain.

Cheers from a myriad bursting throats Greeting the welcome news: Songs in a flood of thankful notes Till even the stones enthrone; And end to the dream of day and night, An end to the long, long strain, An end to the battle and march and fight—But the graves of the dead remain.

The rifle is mute on the bordered top; The evening lamp lights glow; The farmer thinks on a different crop Than bullet and shell may sow. Over the velvet, all silent, vast, The vultures wheel in vain; The banquet of war is done at last—But the graves of the dead remain.

Mothers there are who now may sleep Nor dream of a moaning boy; Who who out of their gladness weep, Maidens who dance with joy, But in many a homestead tears are hot And many an English lane, Where born of the tidings peace comes not—But the graves of the dead remain.

For the graves of the dead remain—

EAST END FOURTH

The program for East Newark's big Fourth of July celebration follows:

The industrial parade will form in the vicinity of Mohlenpaugh's ice house, east of Webb street, and led by the Buckeye band will move promptly at 10 o'clock over the following line of march: East to Allen street, north on Allen to Main street, west on Main to "Brooklyn bridge", where they will counter-march to Buena Vista street, north on Buena Vista street to Indiana street, east on Indiana street to Cedar street, south on Cedar to Florence, east on Florence to Penny avenue, south on Penny avenue to Andover, west on Andover to Cedar, south on Cedar to Tuscarawas, east on Tuscarawas to Oakwood avenue, south on Oakwood avenue to Main, west on Main and disband. For the best display a prize of \$3 will be given; second prize \$2; third prize \$1.

The fantastic parade will also form in the vicinity of the ice house and, led by the Buckeye band, will move promptly at 2 o'clock over the same line of March as that of the industrial parade of the forenoon. For the best display, a prize of \$5 will be given; second prize \$3; third prize \$1.

After the fantastic parade, amusements for the afternoon and evening will be as follows:

First. A greased pig will be liberated at the corner of Cedar and Main streets. Pig will be given to the person catching it.

Second. A fat men's race, 100 yards. None but those weighing 200 pounds or more will be permitted to enter this.

GRAND ENCAMPMENT

Of Odd Fellows to be Held in Dayton. Extensive Arrangements Being Made for Visitors.

A dispatch from Dayton says that extensive arrangements have been completed by the local committees for the grand encampment of the I. O. O. F. to be held in that city July 7, 8 and 9. On Monday, July 7, visiting Odd Fellows will be received. In the evening the Patriarchs Militant degree will be conferred by Canton Earl. On Tuesday morning an open meeting will be held, when Mayor Snyder will deliver an address of welcome to which the reply will be by Adam Weber, P. G. M. The afternoon will be devoted to trolley rides and visits to points of interest, and in the evening a reception and lunch by Miamisburg encampment. Wednesday will be devoted to business sessions.

PICKING BUGS

Is Profitable For People of Malden, Mass., Where Ten Cents a Quart is Being Paid.

Malden, Mass., June 30.—A new source of income has been opened to the people of this city of which a good many are taking advantage. By order of the City Council Street Commissioner Stiles is paying 10 cents a quart for gypsy and brown-tail moths, which have become intolerable pests, the gypsy moths at least having acquired an international fame through the enormous and vain expenditures of the state to exterminate them.

Boys and girls and some men and women are gathering these insects which are now in larval stage, and bringing them into Mr. Stiles by the bushel. Old berry pickers say they never made as much picking blue and wild raspberries as they can now "picking" these insects. In some instances they can literally sweep them up with a broom or brush and fill a quart measure very quickly. At the Street Commissioner's office the worms are destroyed.

The city is well pleased with the experiment, for the worms are being gathered in great quantities, and it is estimated that every one destroyed now means a few hundred less in another year. Saturday Mr. Stiles bought 400 quarts of the writhing insects. The work has been going on some time, and will be continued as long as the "pickers" can find worms in paying numbers.

Sunday was a busy day for the small boy, and many a lad will have more money for his celebration of the Fourth than he had ever before.

"Christians seek not yet repose," was the midnight chime from the church steeple which announced the conclusion of peace in an out-of-the-way Perthshire (Scotland) village.

race. Winner will be given a prize of \$1.00.

Third. A boy's race, 100 yards. None but those under 15 years of age will be permitted to enter the race. Winner will be given a prize of \$1.

Fourth. Will be a potato race. Winner will be given a prize of \$1 and the potatoes.

Fifth. Will be a greased pole on which will be placed two prizes. First prize, \$3; second prize \$1.

Sixth. Will be a sack race, 30 yards; winner will be given a prize of \$1.

Seventh. Will be a wheelbarrow race, 75 yards; winner will be given a prize of \$1.

In addition to the above, two games of ball will also be played at the East Newark ball park, in the afternoon between the Southerners of Columbus, and the Newarks. First game to be called at 1:30 o'clock. Second game 15 minutes after first is finished. One admission fee only will be charged for both games. The Southerners is one of the strongest amateur clubs in the state.

Promptly at 7 o'clock we will assemble on the lawn near the corner of Cedar and Main streets, where addresses will be made by Rev. W. M. Acton, Captain W. A. Irwin and Chas. Montgomery, after which we will show the most beautiful display of fireworks ever seen by the people of Newark, something entirely new.

Come one, come all, come everybody and we will show you that the Brooklyn of Newark has not forgotten the day we celebrate. 6-25-31

A CHANCE OF A LIFE TIME

For Invalids to Get Cured Free of Charge by Calling on the British Doctors at 100 West Main Street, Before July 4th.

A staff of eminent physicians and surgeons from the British Medical Institute have, at the urgent solicitation of a large number of patients under their care in this country, established a permanent branch of the Institute in this city, Flat 2 Avalon Flats, first floor, (west end entrance) 100 West Main street.

These eminent gentlemen have decided to give their services entirely free for three months (medicines excepted) to all invalids who call on them for treatment between now and July 14th. These services consist not only of consultation, examination and advice, but also of all minor surgical operations.

The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months to all who call before July 14th.

The doctors treat all forms of disease and deformities, and guarantee a cure in every case they undertake. At the first interview a thorough examination is made, and, if incurable, you are frankly and kindly told so; also advised against spending your money for useless treatment.

Male and female weakness, catarrh and catarrhal deafness, also varicose rupture, goitre, cancer, and all diseases of the rectum, are positively cured by their new treatment.

The chief associate surgeon of the Institute is in general charge. Hours: 9 to 8. Sundays, 10 to 1.

Laying Dust With Tar.

Visitors to the Riviera will be thankful if the experiments now being conducted by the authorities at Monte Carlo result in remedying the great nuisance caused by the dusty roads, says London Truth. Owing to the heat, watering is of little use, while obvious disadvantages attach to the utilitarian American method of using petroleum for laying dust. A local doctor has, however, been experimenting with an application of coal tar to the road surface, and the result has surpassed expectations. The surface becomes so hard and compact that it is difficult to break up, no dust is formed, rain fails to penetrate the layer of tar, and even after forty days' subjection to traffic there is no sign of wear and tear. Now the municipal authorities and the hotel keepers are taking the matter up, and the result of their labors should not be without interest to municipalities at home.

Threats From Vesuvius.

It has been known for some time, says the Popolo Romano, that Vesuvius again threatens eruption. The latest phase of its activity is a constant emission of smoke of great density and of an intolerably nauseous odor. There is no flame or lava.

RAILWAY AFFAIRS

Although no general order has yet been issued to such effect, the L. E. Shore road will hereafter give preference to men of higher education in the selection of firemen. Officials say it will be the general understanding of the company to give preference to men who can do more than read and write. This will be true even in the position of fireman, a place the public scarcely ever looks upon as one requiring any particular education. Firemen, however, are preparing themselves for the position of engineer, and to reach their ambition must possess unusual knowledge along mathematical lines to begin with.

MARTINIQUE RELIEF STORY.

Frenchman Tells of Horrors of Mismanagement—Many Left to Die. M. de Medenil of the French chamber of commerce of New York city, who went to Martinique to distribute 2,000 francs in gold for the relief of the sufferers there, is very bitter, says the New York Journal, in his denunciation of the officials of that island, who, he says, permitted politics to interfere with the proper succor of the sufferers from the eruption of Mont Pelée.

The catastrophe occurred but a few days before the general elections, he says, and the negro officials of the island were so busy with securing the defeat of the white party that they permitted many unfortunates to lie in the streets of St. Pierre and die for want of attendance, although many might have been saved. In the distribution of the relief stores the same partisan feeling prevailed. The negroes received liberal shares of food and clothing, while the whites were ignored.

Latest Novelty in Women's Chains. The latest craze for women is for Mexican and Indian "lucky" chains, says the New York Journal. These are lorgnette chains of the usual length strung with native pebbles, stones, etc. While not valuable in the strictest sense of the word, these stones are extremely pretty and curious to look at. Some of them have many of the tints of the opal, others are barometerlike and glow with a red fire in fine weather, turning a dull brown when a storm threatens. Some exhale a faint balsamic odor and are said to ward off unpleasant microbes.

Peculiar Effect of Twain's Speech. Harper & Bros. have received the following note from one of the booksellers who attended their reunion of authors and booksellers the other day and heard Mark Twain speak:

Gentlemen—If you find an umbrella, 23 inch, natural wood handle, value \$1.25, on the shelf back of the lunch table as it stood yesterday, please express it to me. I do not often leave umbrellas, but I had never heard Mr. Clemens speak before. If you do not find my umbrella, send Mr. Clemens.

DOUBLE LYNCHING IN SOUTH

Whites and Blacks Fought on a Train—Eight of the Former and More Than Dozen of the Latter Wounded—Some Of Those Injured May Die.

Columbia, S. C., June 30.—Full particulars of a race riot that was followed by a double lynching in Aiken county were received here Sunday evening. More trouble was expected, but in view of the large number of the whites in that section, the negroes are unlikely to make an open assault.

The Dead.

Ike Collins, lynched.
Wyat Holmes, lynched.
The following whites were the most seriously wounded: William Calicut, Owen Carter, will probably die; Alvin Curey, John McDaniel, Fred Herley, C. B. Williams, Willie Lowe, John Anderson and Henry Davis.

The negroes got the whites at a disadvantage Saturday night and used it. It was pay day and a crowd of both races had gone from South Carolina towns to Augusta, where there is no dispensary law. At night the returning trainload was composed of negroes and white factory hands, mostly from Langley. Most of the negroes were drunk, and numbers of the whites. The row is believed to have been started by a white man attempting to inter-

fere in a fight between negroes.

He was soon piled on, and other whites went to his assistance. Then pistols and knives were flashed and for three or four minutes the passenger coach, on which 75 people were crowded, was a struggling mass of infuriated, screaming, cursing, shooting and stabbing men. The whites had nothing but pocket knives, while the negroes were provided with pistols.

The train dashed into Langley station and the crew called for assistance. Only two negroes, Collins and Holmes, were captured. They were almost backed to pieces. They were carried to the jail.

Sheriff Alderman reached Langley late at night and found the crowd assembled for lynching. They would take no advice, but charged on the jail building and broke down the doors, dragged out the wounded men, one nearly dead, and filled their bodies with lead. The negroes were the targets for hundreds of bullets.

It is estimated that ten negroes were more or less seriously cut or clubbed, but they were able to escape.

Your Vacation Plans

With the summer comes thoughts of the vacation. To some, where and how to go; to others, the question of taking an outing this year. To all of us the advice of Dr. Henry Van Dyke wherein he says: "Spend as much time as you can with body and with spirit in God's out-of-doors," is timely at this season. A respite from home and business cares is an absolute essential to better living. Do not put off the vacation. Plan an outing even though it be a short one. Delightful vacations may be taken at the resorts in New York, Massachusetts, New Hampshire, Vermont, Maine and Canada, embracing Lake Chautauqua, Niagara Falls, Saratoga, Lakes George and Champlain, the St. Lawrence and Saguenay Rivers, Adirondacks, White Mountains, Atlantic Coast and Maritime Provinces. As a route for vacation travel the

Lake Shore & Michigan Southern Ry.

is unexcelled, reaching by its through trains from Chicago, Toledo and Cleveland, and via "Big Four Route" through Cleveland, from St. Louis, Indianapolis, Cincinnati, Columbus, etc.) or by direct connections, all of these summer places.

Tickets over Lake Shore give option, boat or rail, between Cleveland and Buffalo, either way, also stop-overs for visiting Lake Chautauqua and Niagara Falls.

The following books, sent free by "under- signed," will help in making your plans: "Lake Shore Tours," containing select list of tours to the east with rates from Chicago, Ill., Toledo and Cleveland, O.; "Lake Chautauqua," an illustrated, descriptive book of that delightful resort. GRANVILLE

Rain Causes a Postponement of the Knights of Pythias Memorial Services.

Granville, O., June 30—The memorial services, which were to have been held by Altamaha Lodge, Knights of Pythias, were postponed until a later date on account of the inclemency of the weather. Quite a number of the members of Roland Lodge, of Newark came up to the village to take part in the exercises, and were considerably disappointed by the change that had been made in the program.

Arthur Myers left on Saturday for Canton, O., where he will spend the summer with his brother, Dr. E. G. Myers.

Mrs. Thomas G. Wharton of Bucyrus, who has been visiting relatives here for some days, has returned to her home.

An important meeting of Altamaha Lodge, Knights of Pythias, will be held on Wednesday evening of this week.

Walter Myers, who has been spending the past five months here with his grandmother, Mrs. H. W. Myers, at her home, corner of Mulberry and College streets, has returned home.

Miss Rosa Kerr, of Columbus, is the guest of Mrs. R. S. Colwell.

Prof. C. Judson Herrick, Prof. W. W. Stockberger and Prof. H. G. Dorsey left this morning for Pittsburg to attend the American Association for the Advancement of Science. From there Prof. Herrick and Prof. Stockberger go to Woodstock, Mass., to spend the summer in research.

The Granville Boxwell commencement will be held in the Methodist church at Granville on Wednesday evening, July 2. The class address will be delivered by Judge E. M. P. Brister of Newark. The list of graduates is as follows: Albert Williams, Dwight Owens, Alice Mae Avery, Elizabeth Williams, Bessie Watkins, Anna Celja Lewis, Adah Altha Avery. A cordial invitation is extended to all to be present.

AMUSEMENTS.

This week the bill at Idlewild park casino will, through the efforts of the management show a number of very excellent features. Notwithstanding the inclemency of the weather there was a fairly large audience at the opening performance and those present went away satisfied with the program as given. Signor Maceo and his trained dog "Chicago," the first number, drew applause which continued during the time the dog was on the stage. The animal can do almost everything, including talk, but must be seen to be appreciated.

A very funny comedy skit called the "New Minister" is offered by Mack and Elliott, who act their parts well and evoke considerable laughter. The Escher sisters, buck and wing dancers do several good turns. Pelot, the comedy juggler, is the best on the bill and his very presence on the stage was the means of an outburst of laughter. He does all kinds of juggling which is out of the ordinary, and was repeatedly applauded.

The program closes with a short comedy sketch entitled the "Stolen Kid," which is presented by J. Knox Gavin and Jennie Platt. They both have good voices and use them to excellent advantage.

DEATH

Of Isaac Claypool at Lancaster at Age of 84 Years—Father of Mrs. A. F. Crayton.

Mrs. A. F. Crayton was called to Lancaster on Saturday by the serious illness of her father, Mr. Isaac Claypool. Mr. Crayton received word that Mr. Claypool had died on Sunday, which was the 84th anniversary of his birth. The deceased had been a sufferer with kidney disease for the past three years, which was the cause of his death. He had many relatives in Licking county, among the Claypool, Miller, Pravel and Montgomery families. Mr. Crayton left for Lancaster Monday afternoon.

Composed in Slumber.

Signor Pihwilliwinshi, the eminent pianist, was moving uneasily in his sleep.

"My dear," said his wife, shaking him, "what is the matter? Wake up!" "Wait till I have finished this piece," he mumbled still waving his hands wildly to and fro on the counterpane. —Chicago Tribune.

MAIL CARRIERS

Of Newark May be Released from "Shoulder Bind" by New Style of Mail Bag.

The National government may give Newark mail carriers a new style mail bag in the near future.

Did you ever notice your postman with the "shoulder bend?" A great many of the letter carriers have become lop-sided on account of the mail bags swinging heavily from their shoulders. In foreign countries, mail bags are made to be carried in front of the postman, and in this way the weight of the bag is balanced on both shoulders. The government is now having made in New York a mail bag of light material the straps being so adjusted as to give the carrier more leverage.

CALLED MEETING

Of the New Democratic County Central Committee to be Held on Saturday, July 19.

Interviewed a Corpse.

The Newark American Tribune of Friday contained an obituary notice the subject of which was John Shraner, head porter at the Clarendon hotel. Thereupon a Signal reporter for the first time in his life had the pleasure of interviewing a corpse. Mr. Shraner has not even been ill and was as much mystified at the origin of the report as one could be. He was the subject of much good humored banter Saturday.—Zanesville Signal.

The Advocate published the rumor of Mr. Shraner's death but in the same paragraph announced that by telephoning to Zanesville it was learned that Mr. Shraner was not only living but in his usual health.

Jacob Bach Dead.

Friends in Newark have received word of the death of Jacob Bach, an old and highly respected citizen of Sandusky, which occurred at his home in that city on last Thursday. The funeral took place on Saturday afternoon. The services were largely attended and many beautiful floral tributes were sent by sympathizing friends.

He is Kept Busy.

"How does that pugilist manage to keep himself in such good condition?" "He gets plenty of exercise signing articles of agreement."

MONTH OF JUNE

Has Been a Record Breaker—Lowest Temperature Known to Weather Department.

Today ends the month of June, 1902. It has been a record breaker having been the coldest June in the history of the weather department.

The average temperature for the month is a little over 60 degrees, while the record for the coldest June is held by that of 1878, when an average of 65.2 was maintained. Up to the sixteenth of the month the temperature was normal, but during the past ten or twelve days it has fallen about 150 degrees, an average of ten degrees for each day. From the 16th to the 28th the average has been 60.7 degrees, which is pretty cold for June.

While this is about a record-breaker when it comes to temperature, the month has shown nothing more than normal in the way of rainfall, as though the weather office has been called upon on several occasions to decide as to that.

Snow fell in Chicago and western Illinois Saturday and the thermometer for a while stood within ten degrees of freezing point. All records for weather in Illinois have been broken. Forecaster Cox of Chicago says:

"The weather for the past ten days is unprecedented and has caused additional alarm to all dependent on the outcome of the crops for a lively hood."

Sunday morning Chicago showed a temperature of 54 degrees. Even St. Louis, which is supposed to be a warm weather town, could boast only of 64 degrees. Omaha and Denver, which had 54 degrees and Cheyenne was down as low as 46 degrees at the same time. The mean temperature for the day in Pittsburgh was 66 degrees. This is eight degrees below normal. In Newark the thermometer registered from 62 to 64.

During the past twenty years, at no time has June shown such a remarkable temperature, nor has it gone so low on the average. During the last week of June in all these years, the maximum temperature has been from 89 to 92 degrees, and the general average has been far above the latest record.

No cause for this unusual weather is known in the Government offices and when the question was asked of the recent eruptions of Mt. Pele might not have had something to do with the matter, the reply was that it was not possible to form even a conjecture on this question.

The greatest objection to such an idea was that it did not seem reasonable that any disturbance in a single locality could extend over such a wide area as would be necessary to affect the entire North American continent.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures whooping cough, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

GOWNS FOR TRAVELING.

Cloaks and Dress For Old Ladies and Young.

(Special Correspondence.)

New York, June 29.—I had intended to write about bathing suits, but when I went to see them I decided that there was not enough to them to make it worth while. They are narrower in the skirts and shorter at both top and bottom, so that there is almost nothing but belt, and that is scarcely enough to grow enthusiastic over. I do not mean the Sunday school affairs to wear at Ocean Grove or even Asbury Park, which is, however, waking up and coming in line with fashions of the smart set. I mean the fancy and fine suits for such places as Narragansett and Newport and one or two others. The suits for Brighton and Coney are of the old regulation standard as to length, breadth and weight and, we may add, ugliness. They are all built on one pattern, and are expected to fit the slender young maiden and her portly grandmother equally well.

But, as I remarked, the fashionable bathing suit is too small for utterance, and so we will consider a pretty and a handsome traveling coat and speak of a useful gown for grandmother, who wants to look as pretty as her age and white hairs will permit. This long garment is intended to look well and at the same time be a protection against the dust and grime of travel. It is like a loose redingote in front and buttons to the waist with a double rank of fancy smoke pearl buttons, but it is arranged to fasten invisibly with hooks and eyes to the bottom.

There is a wide stitched belt which hangs a little in front and is brought up in the back to the middle of the shoulders, giving it somewhat the appearance of a bolero. Below this, falling from the point, the coat is arranged with several plaits, giving grace and fullness to the skirt.

Around the shoulders is a shaped deep collar of the material, which I omitted to say was of drab surah, covered with an applique of lace, and around this is a plaited ruffle six inches deep in front and eight at the shoulders. This is hemmed up and stitched in several rows. The front and bottom are also stitched in the same tailor style. The sleeves have the upper part in a loose hanging puff ending at the elbows to allow for a deep flaring cuff and this stitched until it is as stiff as pasteboard. It is a very elegant style for a traveling wrap and is equally convenient when made in gray alpaca.

One word more about this special garment, and that is that it is quite as

TWO TRAVELING COSTUMES.

useful and handsome for an elderly lady as for a young bride. It all depends upon the way it is worn.

Speaking of old ladies brings me around to the beautiful dress made for a sweet old lady who believes that the older one is the more attention one should give to her dress and the care of her personal appearance. On the other hand, what is the use of growing old if one does not learn to be comfortable in one's clothes? So I think this dress, which was in reality a street costume, would come near to filling the requirement of being handsome and comfortable too.

The comfort in question was a rich dark gray chene silk, with very tender green and faint lilac figures on it. The dress was cut in princess shape back and front, and down every seam was a row of black satin featherbone cable cord, and two rows were set on in scallops all around the bottom, except just across the front breadth. Over the shoulders there was a cape, square at the sides, with a row of deep silk fringe at the edge, but not over the shoulder. This was also edged with a row of the featherbone cord. Two stole ends fell quite to the knees, the ends being furnished with a row of the fringe. The sleeves were just coat shape, with pointed cuffs.

NEW FOOTBALL RULES

Graduate Advisory Committee Makes Radical Changes.

SIDE LINE COACHING CENSURED.

Considered Harmful to the Game and Most Unsportsmanlike Conduct. Teams Must Change Sides After Each Touchdown Scored or Field Goal Kicked.

As the result of a secret meeting of the graduate advisory committee held in New York a few days ago it has just leaked out that there will be radical changes in collegiate football next season, says a Philadelphia dispatch to the New York Evening Journal. The meeting, which was held at the Reform club, was attended by the following: Walter Camp of Yale, chairman; John C. Bell of Pennsylvania, Alexander Moffatt of Princeton, Robert D. Wrenn of Harvard, Paul J. Dashiell of the United States Naval academy and L. M. Daniels of Cornell.

So radical are two of the changes decided upon that the committee suggested that each member talk over the new rules with the football authorities at his particular college or university, and if any objections are raised word to that effect will be sent to the chairman, Walter Camp, and a call for another meeting will be issued. If no objections are raised, then the new rules will be printed in the official football guide for 1902.

The most important revision, and one favorably passed upon by the entire committee, is a rule providing that the opposing teams shall change sides after each touchdown scored or goal kicked from the field. The other radical change is in the kicking of a goal from a touchdown.

The new rule provides for the bringing out of the ball to kicking distance—say, twenty yards from the goal posts—that this point shall be a line of scrimmage, and the try for goal can be made by snapping the ball either for a place kick or a drop kick from behind the line of scrimmage.

It is suggested that the opposing teams shall line up together not farther than five yards apart, so that the defending team shall have an opportunity to prevent the goal. The exact wording of the rule will be decided upon later. This new rule will make goal kicking from touchdowns a most difficult feat and will add considerable spectacular interest to the game. Briefly the other changes in the rules, all of which have been adopted, are as follows:

Rule 10B.—In snapping the ball back if the player so doing is off side the ball must be snapped again, and if this occurs once more on the same down the ball shall go to the opponents. This rule was changed so that the penalty for offside play shall be the loss of five yards by the offending team instead of forfeiting the ball. It was felt that the loss of the ball was too great a hardship.

Rule 25F.—The penalty for tripping an opponent or tackling him below the knees has been changed to five instead of ten yards.

Rule 25E.—This rule, referring to passing or batting the ball toward an opponent's goal, is changed so that the side offending shall be penalized ten yards instead of the loss of the ball.

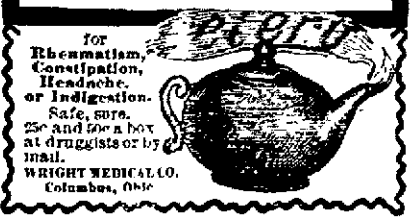

Rule 25F.—In the case of unlawful starting before the ball has been put in play for a scrimmage this rule is changed so that the penalty shall be ten yards instead of the surrender of the ball, the down remaining the same.

Rule 25 (Note).—When a foul is committed which in the opinion of the umpire did not affect the play the offending side may decline the penalty. In case of a run being made from this play not more than fifteen yards from the spot where the foul was committed shall be allowed.

There was considerable discussion over this rule, several of the members of the committee feeling that the full distance gained should be allowed. It was decided, however, to make the limit of fifteen yards twenty-five yards instead of fifteen, as heretofore. In addition to the penalty provided in the rules of last year for side line coaching it was decided to add the following: "Football committee of the American college feels that side line coaching is harmful to the game and should be viewed as thoroughly unbecoming and unsportsmanlike conduct."

ADVOCATE Guessing Contest!

Great interest has been aroused in the Advocate's Guessing Contest as is evidenced by the many guesses that are daily received on the blank coupons clipped from copies of the Advocate.

Many people are guessing two or three times. One may guess as often as he wishes, providing each guess is accompanied by payment for five weeks' subscription to the paper.

REMEMBER, \$200.00

Has been deposited by the Advocate for free distribution among readers of this paper who make the best guesses on the actual population of Newark on June 1, 1902. The one who makes the best guess will be given \$50, second \$25, third \$20, fourth \$15, fifth \$10, to the next five nearest \$5 each, to the next ten nearest \$2.50 each, and to the next fifteen nearest \$2 each.

THIRTY-FIVE CASH PRIZES

Aggregating \$200, given free to Advocate readers, who are required only to pay the sum they may owe for back subscription and five weeks in advance for the paper.

Guess as often as you wish. For every 50 cents paid on advance subscription to the Daily Advocate you may have one guess.

In 1890 Newark had 14,289 people and in 1900 the official census was 18,157. What is the population June 1, 1902? The census is being carefully and accurately taken by experienced men. No person in the Advocate's employ knows anything about the census returns and no employee is permitted to enter the contest.

OUTING GOWNS.

Scarlet and All White Will Be Worn
a Great Deal.
A great deal of scarlet is being worn
for seashore and mountain wear. How-
ever, not every woman looks well in
scarlet, though this year there are so
many shades of red it is quite possible
to find at least one becoming tint.
There is something very charming
about a white or cream linen, and lin-
ens this year are very smart, especial-
ly those of a very coarse make relieved
by Irish lace medallions and embroid-
ery.

GRASS LINEN GOWN.

Most of these little costumes are
made blouse or bolero style, and there
are even a few which are made with
"Frocks and Frills" coats jauntily box
pleated and short enough to reveal the
waistband nearly all the way around.
Coarse white wool etamine lends
itself beautifully to the little sack
coat, but it must be lined throughout
with thin silk or satin, and here the
coarse guipure lace collar will come in
excellently and at the same time be in
keeping with the rest of the costume.
A stylish gown made of grass linen
is here pictured. The waist is made
with a yoke of tucks and insertions;
the fullness below this is gathered into
fine tucks. The sleeves are full and
reach to the wrists. The skirt is elab-
orately trimmed with ruffles and inser-
tions. Narrow black velvet ribbon is
looped into rosettes and used on the
waist and skirt.

JUDIC CHOLLET.

AFTERNOON GOWNS.

Elaborate Styles—White Muslin Em-
broided in Silver.
Afternoon dresses are elaborate and
full of intricate details, whereas in di-
rect contrast to these there is the sim-
plicity of white muslin very slightly
trimmed with embroidered taffeta out-

A USEFUL TAILOR MADE.

lined with silver thread. These gowns
are quite inexpensive and can be
bought in robe length.

A rather pretty idea for an inexpen-
sive frock is to thread white cashmere
or soft delaine through with velvet,
about three rows around the bottom
of the skirt, tucking or box plaiting
the top of it. Then there is a square
sailor collar treated in the same way
and tied with a big bow in the front.

White lace dresses will be embroi-
dered with cream lace on gold tissue
and others with rose colored silk em-
broidered in gold and silver. Appliques
and embroideries are extensively used
to make summer fashions very mag-
nificent.

Gowns of soft white veiling made up
over white taffeta are very smart and
becoming.

A serviceable tailor made is here
shown. The material is navy blue
cheviot trimmed with black braid. The
wide collar is of moire trimmed with
ecru lace.

PROF. KIRK'S WIFE

BRINGS SUIT FOR DIVORCE IN
NEWARK COURTS.

Mrs. Kirk Charges Cruelty and Fail-
ure to Provide—Day's News in
the Court House.

Mrs. Gertrude Kirk, by her attor-
neys, S. M. Hunter and Kibler & Kib-
ler brought suit against Frank Kirk,
asking that the marriage contract be-
tween them be dissolved. Plaintiff
says they were married in 1895, two
children being born of the marriage.
Plaintiff charges defendant with ex-
treme cruelty, with failure to provide,
and asks that the custody of the chil-
dren be awarded to her; asks for reason-
able alimony, and that the lands of
the plaintiff be adjudged free of all
claim or interest of defendant. The
defendant has been principal of the
public schools at Hebron, O.

Common Pleas Court.

Judge George Coyner has decided
the following cases, which had been
heretofore argued and submitted:
A. Smith Stevens, admr. vs. Mary
E. Hamilton, et al, petition dismissed,
and exceptions; notice of appeal on
behalf of plaintiff and each defend-
ant, amount of bond \$50. Flory &
Flory; Kibler & Kibler.
Enos H. Benner vs. Sylvester W.
Williams, judgment in favor of plain-
tiff, and order of partition; notice of
appeal by defendant, bond \$500. Ar-
thur Cunningham and Boggs; Kibler
& Kibler.

Edna Ann Wharton vs. Jno. W.
McDaniel, et al, appraisement con-
firmed, and order of sale. Howard.
State of Ohio vs. J. R. Channel mo-
tion for new trial overruled; defend-
ant sentenced to jail for 30 days,
fine \$100. Sentence suspended pend-
ing error proceedings upon giving
bond, amount \$200. Fitzgibbon, Fu-
con & Fulton; Smythe & Symthe, J.
B. Jones.

Geach vs. Sinnett.

Additional testimony will be taken
Thursday next, before C. C. Forry, spe-
cial master commissioner, in the case
of Wm. Geach vs. Edwin Sinnett. Some
testimony was taken in this case last
winter, but, owing to the death of Dr.
Sinnett, the hearing was continued.
Judge Charles H. Kibler appears for
he plaintiff, and Flory & Flory for
defendant. The action is brought to
recover a balance of account between
the parties, growing out of the opera-
tion of a farm near Granville.

To Circuit Court.

In the case of William B. Ritter vs.
Hugh C. Harrison, a bill of exceptions
has been prepared to take the case to
the Circuit Court on a petition in er-
ror. Defendant seeks to reverse the
order of the Court appointing a receiv-
er for the partnership property, con-
sisting of horses, buggies and other
property used in a livery stable. The
plaintiff is represented by Kibler and
Kibler and A. A. Stasel, and the de-
fendant by Smythe & Smythe.

Appointment of Guardian.

The appointment of a guardian of
William T. Brookover has been contin-
ued by the Probate Court until July
22. This seems to be a case of consid-
erable importance as there were 34
witnesses present. Attorney S. M.
Winn of Zanesville, appeared for the
applicant and Attorney Frank H.
Southard also of Zanesville, appeared
for the defendant. The continuance
was made on application of the plain-
tiff.

Oil and Gas Leases.

An important suit was recently de-
cided in the Court of Common Pleas,
affecting oil and gas leases. The suit
was brought under the style of James
W. Fulton against the Logan Natural
Gas and Fuel Company. The relief
sought for the forfeiture of the lease
on the ground: First, That no rental
had been paid as provided in the
lease, and second, that no well had
been drilled within the vicinity of
lease property within one year. The
lease provided that the defendant com-
pany should drill a well within one
year from the date of the lease, or pay
rental thereafter at the rate of \$33
per annum. Mr. Fulton claimed that
this clause provided for the payment
of the rent in advance, and inasmuch
as the company did not do that, he
asked for a forfeiture. The company
claimed that this clause allowed them
to pay at the end of the second year,
and that was so decided by Judge Sew-
ard who held that the contention of
the company was correct. The lease
also provides that a well should be
drilled within the vicinity in one year,
and upon failure so to do, a forfeiture

of the lease. The petition alleged that
no well had been drilled within the
vicinity, and the Court decided as
against the demurrer this allegation
was good, and therefore overruled the
demurrer of the company to this sec-
ond clause. The Court did not decide
what amount of territory would be re-
garded as vicinity.

This decision of the Court is of spe-
cial interest in the gas section in the
northern part of the county.

both countries."

EXTRA SESSION

Governor Nash is Consulting Wishes
of Some of the Members Regard-
ing the Date.

Columbus, O., June 30—The date of
the extra session of legislature will
largely depend upon the convenience
of a majority of the members thereof.
Governor Nash has decided to consult
the wishes of members before fixing
the date. He has so stated to some of
the members who have already come
here to consult the governor.

Moore Zeller.

On the marriage license record to-
day there appears the names of J.
Willis Moore and Miss Clara Zeller,
thus recalling the Advocate's recent
story from St. Louis regarding this
couple. Mr. Moore is employed at the
Jewett Car Works and Miss Zeller was
recently a nurse in the Philippines. It
is said she rejected a Philippine teach-
er to wed the lover of her school days
at Granville 12 years ago.

HUMANE SOCIETY

A Statement and a Few Questions From the Organization for Readers of the Advocate.

The laws of the State of Ohio authorizing Humane Societies, Sections 3715 and 3716, Revised Statutes, declare the prime, principal and special work and object of the Humane Society to be "the inculcation of humane principles." It is a false conception of the Humane Society to suppose that its officers and members are on the alert only to arrest, fine and imprison. To teach men, women and children to be humane, to deal kindly, considerately and compassionately, first; to prevent cruelty, secondly; and in the extreme infraction of the law, to punish rigorously.

Do you think that in our city there are no children or animals suffering from neglect or cruelty?

Are all men and women faithful, considerate and kind to their children and animals?

Have you ever looked into that cheerless joint in the alley or dilapidated cabin by the road side, to see how children live and die? Have you ever thought about it?

The law authorizes Humane Society members, officers and agents to interfere wherever neglect or cruelty exists.

HYPNOTIST

Who Buried a Man Alive Dug Him Out of Grave for Fear He Would Drown.

Reading, Pa., June 30.—For fear the driving rain would drown W. W. Kretz in his grave, his friends dug him out yesterday. The coffin was already half full of water, but Kretz lay in it in a comatose or hypnotic state, unmindful of his nearness to death. He had been placed there for a test by a hypnotist.

MASS MEETING

TO BE HELD IN CITY HALL THIS EVENING.

To Consider Proposition to Establish Another Big Industry in the City. Be Present.

A meeting important to the people of Newark is to be held at the Council Chamber in the City Hall at 7 o'clock tonight. As announced in Saturday's papers, the meeting is for the purpose of considering a proposition to locate a big rolling mill in West Newark. Mr. Taylor who represents the Eastern capitalists who are about to establish a new mill to cost over \$150,000, will be at the meeting to explain the conditions upon which Newark can secure the plant.

Mr. Taylor has been instrumental in locating the big mills at Marietta and Cambridge and at other points, and he gives assurance that these Eastern men are about to establish a plant which Newark by the proper effort can secure. Mr. Taylor has an option on the Forry farm near the Moser-Wehrle foundry.

The proposed mill would run twenty-four hours daily and would give employment to 250 to 350 men, nearly all of whom would be new residents of the city. The pay roll, it is estimated will run from \$20,000 to \$25,000 per month.

A full attendance of the people is requested by the Board of Trade directors who, at a special meeting last week considered the project. It is to be distinctly understood that no subscriptions will be asked tonight and no promises will be exacted.

The meeting is simply to let the people know Mr. Taylor's proposition and to ascertain whether it will be worth while to endeavor to secure this new industry.

The meeting will be held at 7 o'clock this evening in the City Council chamber at City Hall. Be present.

SIX LIVES

Believed to Have Been Lost on Lake Erie—Steam Barge Went Down in Storm—Four Saved.

Sandusky, O., June 30.—Six lives were probably lost in the storm which raged on Lake Erie Saturday night and Sunday. The steam barge, George Dunbar, went down ten miles east of Kelley's island. The barge carried a crew of ten. The missing are: Mate Myron Tuttle of Cleveland; Engineer Johnson of Buffalo; Wheelman Eck of Sheboygan; Fireman Charles Washie. Three men whose names have not been learned.

Captain John Little of Port Huron, two women and a sailor arrived at Kelley's island Sunday. When they reached shore water, the yawl capsized and the occupants were thrown into the water. The heavy seas washed them ashore, and people who were watching took them in charge.

Captain Little devoted most of his efforts in saving the lives of his family. He did not see the crew after he left the vessel and is of the opinion that if they took to a raft that they must have perished, because no small craft could live in the sea that was raging at the time.

USED IN HOT WEATHER

PAINE'S Celery Compound

Renews and Invigorates the Body and Maintains a Strong and Clear Brain.

Thousands of people in whose blood lurk the seeds of disease, decline mentally and physically when the hot weather comes on. They become weak, languid, morose, have loss of memory, loss of appetite with wasting of flesh.

For all such, Paine's Celery Compound is an absolute necessity at this time. It is the only remedy approved of by able physicians for purifying and enriching the blood, for feeding and nourishing the nerves, for maintaining digestive vigor for the building of flesh, tissue and muscle, and for promoting refreshing and healthful sleep.

If your condition of health is not satisfactory, if you are not happy, active, and vigorous at present, try the virtues of one bottle of Paine's Celery Compound; you will have cause to thank heaven that such a marvellous recuperator was placed within your reach.

The following letter from Hon. J. S. McCarthy, Washington, D. C., a gentleman of national reputation, is a blessed assurance to all hot weather sufferers that Paine's Celery Compound can bestow that health and vigor so much needed at this season.

"I was suffering from nervousness, loss of appetite and insomnia. I was all run down, and nothing did me any good, until a friend advised me to try Paine's Celery Compound. I took four bottles of the Compound, and I am more than proud to testify that it completely cured me. I haven't had an unwell day since. I eat hearty and sleep like a healthy baby. I consider Paine's Celery Compound the best remedy manufactured, and I most heartily recommend it to suffering humanity the world over."

Dr. Willoughby Miller.

Dr. Willoughby Miller, who has been the guest of his sister, Mrs. A. G. Ashbrooke for the past ten days, left Sunday night for Berlin, Germany. Dr. Miller is an old Newark boy, having graduated from the Newark High School. He went to Germany, where he has practiced his profession, that of dentistry, in which he has gained fame and wealth, being dental surgeon to Emperor William and the royal family.

THORNY PATH

FOUND BY THESE LOVERS AS THE GIRL'S FATHER

Charges the Young Man With Embezzlement—His Sweetheart is a Mexican Girl.

New York, June 30.—When the Ward line steamer Havana, which arrived here last night from Vera Cruz, and Havana, left the former port she had on board as passengers Amalio Raves, a young Frenchman, and Isabelle La Cavalleria, a Mexican girl.

Raves was charged with embezzlement by the father of the girl, who had the Mexican authorities cable to the Mexican Consul at Havana to arrest the couple. The Mexican Consul consulted with the French Charge d'Affaires, who decided that it was possible to hold the couple, and took them from the steamer when she arrived. Captain Robertson protested, but to no avail.

When Raves and Miss La Cavalleria boarded the steamer at Vera Cruz, they had no clothes but those they wore, and it was evident that the girl had just come from school. They told the passengers that they intended to be married as soon as possible. The passengers supplied the couple with clothing and requested Captain Robertson to marry them. The Captain refused to do so because the girl is only 15 years old.

Raves threatens a damage suit against the Ward Line and says he will also invoke the aid of France, of which country he is a citizen.

Incendiary Fire.

Crestline, O., June 30.—Fire of incendiary origin Sunday destroyed the plant of the Galion Wagon Gear company, with a loss of \$250,000; insured at \$134,000.

Fred Enis and Ernest Francisco were arrested accused of the crime, but later released. The plant was built by the city and turned over to the company with the understanding that they would maintain it for a number of years. During the past month several attempts have been made to burn it down. It is alleged that President Flickinger of the company, incurred the hatred of the taxpayers in a controversy over \$50,000 in bonds. It is said that the city will lose this entire amount by the fire. Mr. Flickinger says that the plant will not be rebuilt at this place, owing to the feeling against the company. Very ugly rumors concerning the actual origin of the fire are in circulation and the police have been warned to keep their hands off.

EAST NEWARK

Residents Terrorized by Mad Dog, Which Was Shot After an Exciting Chase Sunday.

A dog which was undoubtedly suffering from hydrophobia, terrorized the residents of East Newark Sunday morning and was finally killed after an exciting chase. The dog was a large white animal and in his mad career bit dogs belonging to Steve and Bill Davis, Mr. Billman of Vine street and others. He was pursued by Messrs. William and Walter H. Leggo, Blasdel, Trickey and Barcus. He got under Barbee's tin shop where Charles Murray shot him dead. The other dogs were also killed by officers.

HATHAMITE.

Test of a New Explosive Made Near Cleveland—It Has Certain Safety Features.

Cleveland, June 30.—In a lonely locality a few miles east of the city Saturday a test was made of a new explosive known as "hathamite," the invention of Professor H. M. Hathaway of Wellsville, Pa. The safety features were demonstrated by pounding the explosive upon an anvil until the sparks flew, throwing it upon fire, placing it in a tin box and firing rifle bullets through it. The explosion can only take place when a dynamite percussion cap is used. Some of the explosive was next frozen into a cake of ice and exploded. Circular pieces two inches in diameter were blown from 3-16th boiler plate, cutting the plate clean, one and one-half ounces of the explosive being simply placed upon the plate and detonated in the open air. A one-pound regulation army shell was exploded within a receptacle and the shell blown into a thousand pieces.
